

How to get the GPS Coordinates of your Nest Box from your Iphone!

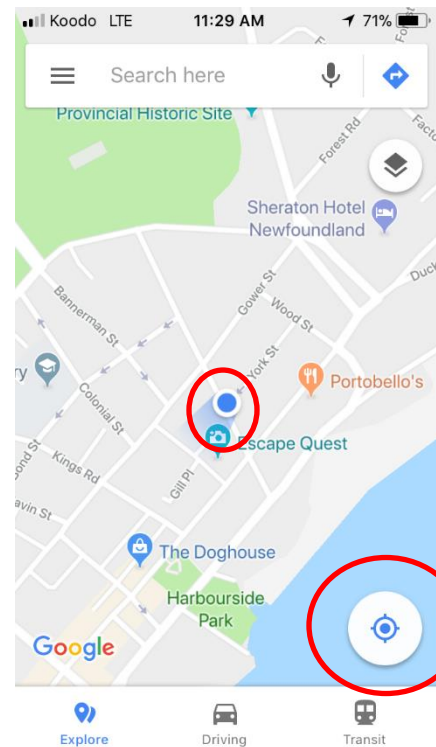

- 1) In *Settings* choose *Privacy*
- 2) Turn on *Location Services* (See image below)

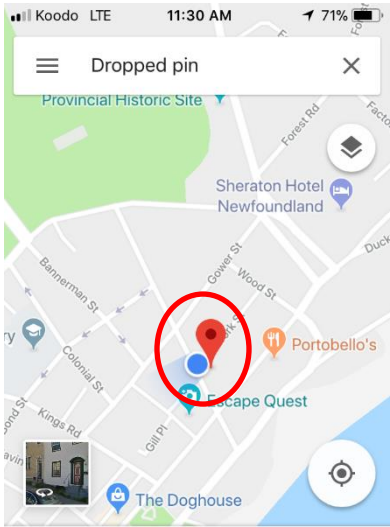

This will enable your phones GPS and requires data to find your location

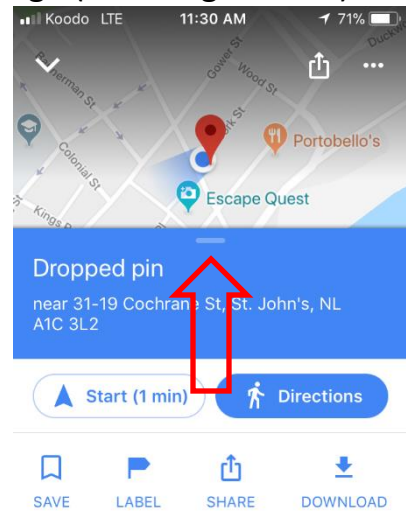

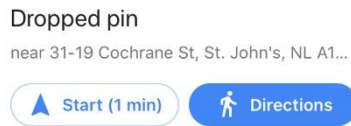

- 3) Download *Google Maps* from the App store
- 4) Make sure that you are connected to WiFi /data or you have downloaded the map so that you are able to use it offline (see additional steps below)
- 5) Open Google Maps and in the bottom right hand corner tap the icon (the crosshairs) to see your location. It will appear as a blue dot on your map (see image on the right)

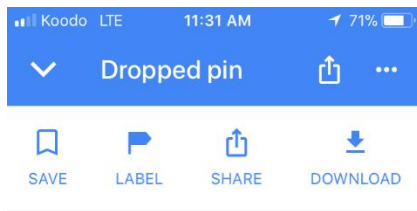

6) Hold down on the location to “Drop a Pin”. The Pin will appear as a red teardrop shape (see image on the left)

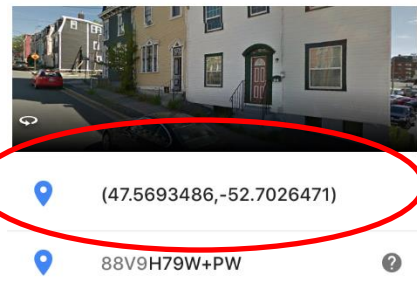

7) Pull up on the information about your “dropped pin” at the bottom of the page (see image below)

8) The GPS Coordinates will be listed (see image below). In this case the coordinates are (47.5693486, -52.7026471)

Measure distance

(47.5693486, -52.7026471)
