BOGS° IMPACT FUND PROJECT DETAILS

BOGS° Impact Fund

BOGS[®] Footwear is thrilled to announce the launch of the BOGS[®] Impact Fund. This grant program will invest in outdoor education programs that provide lower income youth with opportunities to get outside to learn play, and grow. Many young people -- especially underserved and low-income communities -- don't develop a relationship with the outdoors due to lack of education, access and resources. At BOGS[®], we live to get outside and we think every child should have the opportunity to do so, too.

The BOGS[®] Impact Fund will award 3-year grants to a select number of non-profits, every grant will also include an in-kind donation of BOGS[®] Footwear. Projects should engage underserved/low-income youth and encourage those youth to grow and learn outdoors throughout their lives. Awarded organizations should be able to demonstrate how the outdoors acts as the perfect classroom to learn, play and enjoy being a kid. The goal of this program is to provide resources and dollars to remove barriers so all kids can have access to outdoor education opportunities.

Requirements: Projects must connect young people (ages 3-18) to outdoor education opportunities and engage them through ongoing outdoor experiences.

Projects should focus on creating a world where outdoor education is highly valued.

Eligible requests should be asking for support to further sustain already existing programs that have previously illustrated impact on the local community and participants.

Organizations must have a use for BOGS[®] Footwear that will provide a benefit to the program and program participants.

Eligible organizations must be based in the United State or Canada and must be designated as a federally tax-exempt 501(c)(3) organization.

Projects should be continually engaging local youth, the BOGS[®] grant will conclude in August 2022.

Project outcomes must include a minimum of 5 high-resolution photos highlighting project scope due with each annual report. Projects must use grant funding for on-the-ground program needs rather than operating or salary costs.

Special consideration will be given to projects that involve or engage: Underserved communities or lower income youth.
